2. Which directory service software would be used exclusively on a Windows network?

1 / 1 point

👍 Correct

☐ DSP

☐ OpenLDAP

☒ Active Directory

☐ DISP

3. Instead of assigning access for each user account individually, _____ is a more efficient and easier-to-manage approach.

1 / 1 point

👍 Correct

☐ LDAP

☒ centralized management

☐ active directory

☐ centralized authentication

4. In LDAP, what does dn stand for at the beginning of the entry?

1 / 1 point

👍 Correct

☐ Domain name

☐ Distinct name

☐ Distinguished number

☒ Distinguished name

5. When logging into a website that uses a directory service, what command authenticates your username and password?

1 / 1 point

👍 Correct

☐ Remove

☐ Add

☐ Modify

☒ Bind

6. Which of these statements about Active Directory (AD) are true? (Choose all that apply)

1 / 1 point

👍 Correct

☐ AD is incompatible with Linux, OS X, and other non-Windows hosts.

☒ AD can "speak" LDAP.

☒ AD is used as a central repository of group policy objects, or GPOs.

☐ AD includes a tool called the Active Directory Authentication Center, or ADAC.

7. If a system administrator needs to give access to a resource to everyone in a domain, what group in Active Directory can they use?

1 / 1 point

👍 Correct

☐ Resource Users

☒ Domain Users

☐ All Users

☐ Enterprise Admins

8. Which of these statements are true about managing through Active Directory? (Choose all that apply)

0.75 / 1 point

👍 Correct

☐ ADAC uses PowerShell.

☒ The default group's Domain Users and Domain Admins are security groups.

☐ Distribution groups can be used to assign permission to resources.

☒ Domain Local, Global, and Universal are examples of group scopes.

9. What is the difference between a group policy and a group policy preference?

1 / 1 point

👍 Correct

☐ Preferences are reapplied every 90 minutes, and policies are more of a settings template.

☒ Policies are reapplied every 90 minutes, and preferences are a settings template that the user can change on the computer.

☐ A policy is editable only by admins, but anyone can edit a group policy preference.

☐ A preference is editable only by admins, but anyone can edit a policy.

10. Which of the following are common reasons a group policy doesn't take effect correctly? (Choose all that apply)

0.5 / 1 point

👍 Correct

☒ Fast Logon Optimization may delay GPO changes from taking effect.

☒ Replication failure may occur.

☐ Kerberos may have issues with the UTC time on the clock.

☒ The GPO may be linked to the OU that contains the computer.

☒ This should not be selected Please review the [video about group policy troubleshooting](#)
