3. What's the optimal recommended backup storage strategy?

- ☐ Tape backups
- ☐ Off-site backups
- ☒ A combination of on-site and off-site backups
- ☐ On-site backups

Correct

1 / 1 point

4. What are good reasons to do yearly disaster recovery testing? Select all that apply.

- ☒ To create downtime
- ☒ This should not be selected
Please refer to the video about [testing backups](#) for a refresher.

- ☒ To ensure multiple people have appropriate rights and training to restore operations

Correct

- ☒ To identify additional vulnerabilities

Correct

- ☒ To be prepared for all possible snags or problems

Correct

0.75 / 1 point

5. Which backup type only backs up files that have changed since the last run?

- ☐ Full backup
- ☐ Partial backup
- ☐ Differential backup
- ☒ Incremental backup

Incorrect

Please refer to the video about [types of backups](#) for a refresher.

0 / 1 point

6. Which of the following are advantages of cloud storage services? Select all that apply.

- ☒ They allow everyone to access a person's files
- ☒ This should not be selected
Please review the video about [user backups](#) for a refresher.

- ☒ User backups don't require complicated scheduling.

Correct

- ☒ They make it easy for users to configure what files or folders they want to backup.

Correct

- ☒ Users can sync and backup files across platforms and devices.

Correct

0.75 / 1 point

7. Some steps of the disaster recovery plan might be time sensitive to ensure there is no data loss or equipment damage. Which element of the disaster recovery plan is designed to address this time sensitivity?

- ☒ Corrective or recovery measures
- ☐ Preventative measures
- ☐ Detection measures
- ☐ Disciplinary measures

Incorrect

Please review the video about [disaster recovery plans](#) for a refresher.

0 / 1 point

8. You are performing a network risk assessment to develop your disaster recovery plan. Which of these are examples of corrective or recovery measures? Select all that apply.

- ☒ Hardware repair and replacement

Correct

- ☒ Redundancy solutions

This should not be selected

Please review the video about [designing a disaster recovery plan](#) for a refresher.

- ☒ Rebuilding and reconfiguring services

Correct

- ☒ Restoring data from backup

Correct

0.75 / 1 point

9. What's the purpose of a post-mortem report?

- ☐ To assign legal liability
- ☐ To identify bad employees
- ☒ To learn from mistakes
- ☐ To test systems

Correct

1 / 1 point

10. Why is it important for post-incident analysis to highlight things that went well?

- ☐ It improves team morale.
- ☐ It's a way to get more money for preventative systems.
- ☒ It helps demonstrate the effectiveness of systems in place.
- ☐ It minimizes the importance of what went wrong.

Correct

1 / 1 point
